 RFP Summary

Build a 2026 cross-brand CRM program for email/SMS covering strategy, segmentation, lifecycle journeys, guidelines, modular templates, and accelerated SLAs (1–2 weeks BAU, 2–3 weeks campaigns). Deliver ongoing production (welcome series, monthly BAU) across Monster Energy, Reign, Bang, NOS, Full Throttle, and FLRT; internationalize for CA, BR, MX, JP, CL, AR with localization. Run continuous A/B testing, implement learnings into the design system, and provide dashboards with actionable insights. Upskill internal teams for a post-agency model. Govern intake, resourcing, approvals, and risks to deliver on time and improve engagement, retention, and conversion.

Goals:

- Define cross-brand CRM strategy, segmentation, and lifecycle journeys
- Establish SLAs: 1–2 weeks for BAU, 2–3 weeks for campaigns
- Create brand-specific email/SMS guidelines and modular templates
- Ensure accessibility, dark mode, and reliable cross-client rendering
- Produce and QA welcome series and monthly BAU across all brands
- Internationalize and localize for target markets
- Run continuous A/B testing and operationalize learnings
- Build dashboards and cadence-based reporting with insights
- Train and enable internal teams for post-agency operations
- Program governance to deliver all volumes on time

Channels: email, sms

Markets: United States, Canada, Brazil, Mexico, Japan, Chile, Argentina

Complexity: High

Total Planned Hours: 4358.5

 Project Flow & Department Sequencing

From a PM perspective, here's how these departments flow together:

1. **Strategy** → Sets foundation & direction
2. **Creative** → Develops visual identity & concepts
3. **Content** → Creates messaging & narratives
4. **Paid Media** → Plans distribution & reach
5. **Technology** → Builds digital infrastructure
6. **Integrated Marketing** → Orchestrates & optimizes all channels

(6 deliverables)

☒ [Strategy] **Creative Strategy / Campaign Plan Deck**

Provides a unifying deck to codify cross-brand CRM strategy, segmentation, lifecycle journeys, measurement, and roadmap—useful for stakeholder alignment.

 **Risks:** Risk of being a 'deck-only' deliverable without implementation tie-in to ESP, data, and engineering; must align with SLA constraints.

CHARLES AGENT ProBuFo v3.0

☒ **Brand Approach for Campaign Period**

Can inform brand-specific guardrails that complement CRM guidelines; helpful for cross-brand consistency though not CRM-specific.
18.9h

No specific tasks selected by AI

☒ **Campaign Roll-Out/Launch Road Map**

17.2h

▶ ✓ AI-Selected Tasks (2) Select All Deselect All

☒ **Content Plan**

Mentions accessibility, dark mode, and standards that inform modular email templates and faster cycles.
25.8h

No specific tasks selected by AI

☒ **Content Production Shoot Approach**

References email code standards and accelerated SLAs that support cross-brand CRM production speed and quality.
17.2h

No specific tasks selected by AI

☒ **Content Production Shot List Review & Guidance**

Focuses on photo/video production logistics; little to no relevance for email/SMS CRM program.
12h

No specific tasks selected by AI

☒ **Content Types across Full Funnel**

Helps frame content across journey stages; partial relevance to email content frameworks and accessibility, but broader than CRM needs.
20.6h

No specific tasks selected by AI

☒ **Customer Journey**

15.5h

CHARLES AGENT ProBuFo v3.0

☒ [Strategy] **Brand Positioning Strategy**

69% confidence 119.6h

Added

Evidence explicitly references defining cross-brand email/SMS CRM strategy, segmentation, lifecycle journeys, and establishing production SLAs, matching the 2026 CRM program goals.

⚠️ **Risks:** Title suggests brand positioning not CRM; scope could skew to messaging and miss operational needs like modular templates and enablement.

▼ Components (3) Select All Deselect All

✓ **Brand Narrative**
Supports consistent messaging for email/SMS guidelines across brands.
22.4h
No specific tasks selected by AI

✓ **Brand Values Statement and or Proposition**
Informs tone and cross-brand consistency for email/SMS guidelines and playbooks; indirectly supports modular template rules.
19.8h
No specific tasks selected by AI

✓ **Brand Vision Statement**
High-level direction can guide tone and guardrails for CRM communications.
18.9h
No specific tasks selected by AI

✓ [Strategy] **Project Kickoff** 67% confidence 42.2h Added
Universal deliverable - required for all projects

⚠️ **Risks:** Poor requirements capture leads to rework; unclear governance undermines SLAs.

✓ [Strategy] **Competitive Landscape Analysis** 56% confidence 67.1h Added
Informs cross-brand CRM positioning, value exchanges, and lifecycle benchmarks to shape strategy and journeys.

⚠️ **Risks:** Potential duplication of existing insights; over-scoping could delay execution.

✓ [Strategy] **Quantitative Research** 56% confidence 27.5h Added
Enables data-driven segmentation, audience sizing, and baseline metrics to inform journeys and testing.

⚠️ **Risks:** Data gaps or long fieldwork could push timelines; risk of analysis paralysis.

✓ [Strategy] **Qualitative Research** 58% confidence 81.7h Added
Explicitly covers cross-brand CRM email/SMS strategy, segmentation, and lifecycle journeys—the core of the brief.

⚠️ **Risks:** If research scope or sample is weak, outputs may not be actionable; requires close alignment with operations and ESP constraints.

▼ Components (2) Select All Deselect All

✓ **Insights & Recommendations Report**
Translates findings into design system/playbooks and measurement—key for guidelines and governance across brands.
25.8h
No specific tasks selected by AI

✓ **Research Debrief & Synthesis**
Consolidates CRM strategy, segmentation, and journey insights; supports
25.8h
No specific tasks selected by AI

CHARLES AGENT ProBuFo v3.0

☒ [Creative] **Brand Style & Usage Guidelines**

69% confidence 142.8h

Added

Directly enables brand-specific email/SMS guidelines and modular systemization; supports accelerated SLAs across brands.

⚠ **Risks:** If not CRM-channel-specific, may omit email/SMS patterns or platform constraints; adoption risk across brands.

▼ Components (1) **Select All** **Deselect All**

☒ **Brand Do's & Dont's**

Provides actionable guardrails for email/SMS content and design, reducing revisions and helping meet 1–2/2–3 week SLAs.

15.5h

No specific tasks selected by AI

☒ [Creative] **Campaign Strategy**

67% confidence 78.3h

Added

Guides CRM campaign planning, calendars, and creative; supports 2–3 week campaign SLAs and localization for market-specific sends.

⚠ **Risks:** May omit segmentation logic or technical template standards; possible overlap with content planning.

▼ Components (1) **Select All** **Deselect All**

☒ **Marketing Tactics (Platforms, Formats, Cadence, Organic, Paid)**

Helps define platforms and formats including email/SMS, but scope spans beyond CRM into paid/organic social.

12h

No specific tasks selected by AI

☒ [Creative] **Editorial Series**

59% confidence 14.6h

Added

Welcome series and monthly sends map to lifecycle journeys and BAU; localization aligns with cross-brand needs.

⚠ **Risks:** Content production and data trigger dependencies can impact speed and consistency across markets.

☐ [Creative] **Brand Identity Development**

55% confidence 211.6h

Add to Selection

Brand identity informs email/SMS guidelines and modular templates, but full identity development is not required unless missing.

⚠ **Risks:** Potential rebrand scope creep, cost, and timeline impacts that could delay CRM delivery and SLAs.

▼ Components (1) **Select All** **Deselect All**

☐ **Graphic & Copy Messaging Cornerstones**

Defines cross-brand copy/design standards, localization, and content building blocks for email/SMS guidelines and modular templates.

20.6h

No specific tasks selected by AI

☒ [Creative] **Experiential Design**

63% confidence 39.6h

Added

Includes processes to meet 1–2 week BAU and 2–3 week campaign SLAs and manages creative-to-ESP handoff.

⚠ **Risks:** 'Experiential' scope may drift beyond CRM; overlaps with Production could create duplicated workflows and accountability.

▼ Components (2) **Select All** **Deselect All**

☒ **Brand ID Assets**

Supports a design system, playbooks, and measurement to operationalize modular templates and enforce SLAs.

15.5h

No specific tasks selected by AI

CHARLES AGENT

ProBuFo v3.0

☒ **Experience Enhancement Strategy**

Explicitly covers cross-brand CRM strategy, segmentation, and lifecycle journeys for email/SMS.
10.3h

No specific tasks selected by AI

☒ **[Creative] Campaign Concepting**

58% confidence 74h

Added

Campaign concepting can support CRM campaigns but is not essential to establish strategy, templates, or SLAs.

 **Risks:** Extra rounds can slow timelines and conflict with modular, rapid production.

▼ Components (3)

Select All

Deselect All

☒ **Campaign Ideation & Concept Development**

Useful for CRM campaign themes but secondary to foundational program components.
25.8h

No specific tasks selected by AI

☒ **Key Brand Visuals**

Establishes visual system for modular templates, accessibility, and cross-brand consistency.
18.1h

No specific tasks selected by AI

☒ **Messaging & Copy**

Core to brand-specific email/SMS guidelines and modular content blocks used across journeys.
16.3h

No specific tasks selected by AI

☐ **[Creative] Marketing Collateral (Asset Prod)**

54% confidence 104.9h

Add to Selection

General asset production may support CRM but is not specific to email/SMS modular templates.

 **Risks:** Diffuse scope can consume production capacity needed for BAU cadence.

☐ **[Creative] Paid Media Assets**

51% confidence 140.2h

Add to Selection

Paid media assets are not required to build an email/SMS CRM program; the scope is channel creative for ads, not CRM templates or journeys.

 **Risks:** Scope creep into media production and budget diversion from CRM templates/guidelines.

☐ **[Creative] Ad Assets**

45% confidence 61.9h

Add to Selection

Ad creative does not advance CRM strategy, segmentation, lifecycle journeys, or modular email/SMS templates.

 **Risks:** Misalignment with CRM objectives; time and budget drift.

☐ **[Creative] Social Assets**

47% confidence 13.8h

Add to Selection

Social assets are outside email/SMS CRM scope and do not advance templates or journeys.

 **Risks:** Scope drift from CRM to social content production.

CHARLES AGENT

ProBuFo v3.0

☒ **[Creative] Organic Assets**

49% confidence 92.9h

Added

Generic organic assets are not the modular email/SMS templates or guidelines needed for CRM.

 **Risks:** Dilution of effort from CRM template system and code standards.

☐ [Creative] **Video Assets**

50% confidence 20.6h

Add to Selection

Video assets can support email/SMS campaigns (e.g., animated visuals) but are not core to defining CRM strategy, segmentation, journeys, or modular template systems.

 **Risks:** Scope creep into production-heavy assets; limited email client support; diverts resources from template and journey build.

☒ [Creative] **Web Assets**

45% confidence 66.2h

Added

Web assets can support CRM landing pages but the brief focuses on email/SMS strategy, journeys, and templates.

 **Risks:** May shift focus to site creative rather than ESP templates and journey orchestration.

▼ Components (2) Select All Deselect All

☐ **Brand.com Asset Updates**

Mentions production SLAs and operationalizing learnings into design systems/playbooks, which is adjacent to CRM governance but site-focused.

14.6h

No specific tasks selected by AI

☐ **Email Newsletter Banner**

Directly supports modular email template build and localization; aligns with accelerated SLAs for BAU and campaigns.

14.6h

No specific tasks selected by AI

☐ [Creative] **Art Direction**

50% confidence 31h

Add to Selection

Informs cross-brand creative guidelines and supports a cohesive modular email/SMS template system.

 **Risks:** Risk of prioritizing aesthetics over accessibility/deliverability; needs tight integration with coding standards.

● (5 deliverables)

☒ [Content] **Content Plan**

66% confidence 43.9h

Added

Defines email/SMS content governance, accessibility/dark mode/code standards, and cadence; underpins modular templates and BAU vs campaign planning.

 **Risks:** May not cover data-driven segmentation or journey mapping unless explicitly scoped.

▼ Components (2) Select All Deselect All

☒ **Organic Social Plan**

Outside email/SMS CRM scope; focuses on social channels.

12.5h

No specific tasks selected by AI

☒ **Platform Content & Cadence Strategy**

Sets cross-brand email/SMS themes and frequency aligned to lifecycle journey strategy.

9h

No specific tasks selected by AI

CHARLES AGENT

ProBuFo v3.0

☒ [Content] Production

67% confidence 148.4h Added

Sets production standards (accessibility, dark mode, rendering) and processes to achieve accelerated BAU/campaign SLAs for email/SMS builds.

⚠️ Risks: ESP limitations, QA/resource bottlenecks, and multi-client rendering issues can delay timelines and degrade quality.

▼ Components (2) Select All Deselect All

☒ On-set Creative & Art Direction

Primarily supports content capture; not core to defining CRM strategy, segmentation, or modular email/SMS templates.

6.9h

No specific tasks selected by AI

☒ Talent & Crew Management

Knowledge transfer and resource orchestration can help cycle time, but it's tangential to CRM strategy/templates.

3.4h

No specific tasks selected by AI

☒ [Content] Post-Production

61% confidence 148.4h Added

Email code QA (accessibility, dark mode, rendering) is essential for reliable cross-client modular templates and brand consistency.

⚠️ Risks: Could be interpreted as photo/video post rather than email dev QA; ensure ESP-compatible HTML/CSS and testing coverage.

☒ [Content] Pre-Production

60% confidence 341.9h Added

Pre-production planning enables module taxonomy, content matrices, and brand-specific email/SMS guidelines needed for modular templates.

⚠️ Risks: May skew toward shoot planning; must be reframed to CRM templates, copy/legal localization, and ESP-ready assets.

▼ Components (5) Select All Deselect All

☒ Post Production Plan & Timeline

Creates concrete production plans and timelines that operationalize accelerated SLAs for BAU and campaign work.

13.8h

No specific tasks selected by AI

☒ Product Organization (this refers to the actual products being shot for CPG brands, hair, skin, beauty, etc.)

Organizing physical products for shoots is not pertinent to building email/SMS CRM strategy, journeys, or templates.

12h

No specific tasks selected by AI

☒ Run of Show & Call Sheet

Run-of-show and call sheets are production artifacts for shoots, not CRM email/SMS program design.

14.6h

No specific tasks selected by AI

☒ Shoot Oversight & Direction

Creative shoot oversight is unrelated to email/SMS CRM strategy, segmentation, or template engineering.

16.3h

No specific tasks selected by AI

☒ Vendor Engagement

Could be repurposed to engage ESP/SMS vendors, legal, and localization

12.9h

No specific tasks selected by AI

☐ [Content] Meetings

49% confidence 18.9h

Add to Selection

Meeting cadence supports SLA adherence and governance but does not itself produce strategy, templates, or journeys.

⚠ **Risks:** Process overhead without clear outputs or decision rights.

▼ Components (2) Select All Deselect All

☐ Monthly Priorities Meeting

Supports 1–2 week BAU and 2–3 week campaign SLAs via prioritization, though it's process-focused.

5.2h

No specific tasks selected by AI

☐ Quarterly Organic & Paid Briefings

Can align roadmaps and SLAs at a portfolio level; indirect contribution to CRM build.

7.3h

No specific tasks selected by AI

• (7 deliverables)

☐ [Paid Media] Reporting

47% confidence 39.6h

Add to Selection

Paid media reporting is tangential and does not address CRM email/SMS strategy, lifecycle design, or SLAs.

⚠ **Risks:** Blurs channel ownership and shifts focus away from CRM-specific goals and timelines.

► Components (5) Select All Deselect All

☐ [Paid Media] Paid Media Strategy

51% confidence 123.9h

Add to Selection

Focuses on paid channels; only tangential to CRM email/SMS strategy and operations.

⚠ **Risks:** Diverts scope and budget from CRM build; risks KPI misalignment.

► Components (2) Select All Deselect All

☐ [Paid Media] Paid Media Trafficking & Performance

51% confidence 30.1h

Add to Selection

Focuses on media trafficking/performance, not email/SMS CRM strategy, templates, or SLAs.

⚠ **Risks:** Channel distraction and attribution complexity; limited impact on CRM program build.

► Components (3) Select All Deselect All

☐ [Paid Media] Paid Media Buying & Activation

45% confidence 26.7h

Add to Selection

Paid media buying is outside the scope of owned-channel CRM (email/SMS) strategy and execution.

⚠ **Risks:** Budget and focus diversion; compliance and measurement frameworks differ from CRM.

☐ [Paid Media] Web Analytics Audit

52% confidence 24.1h

Add to Selection

Web analytics auditing is adjacent; CRM needs ESP/CDP/email analytics more than paid media web tracking.

⚠ **Risks:** Misplaced focus on site/paid metrics; access hurdles that don't impact CRM

► Components (1) Select All Deselect All

☐ [Paid Media] Paid Media Onboarding

43% confidence 24.1h

Add to Selection

CHARLES AGENT

ProBuFo v3.0

Paid media onboarding is outside the scope of building a CRM email/SMS program, strategy, and SLAs.

⚠ **Risks:** Scope creep into acquisition channels; misaligned KPIs and resource allocation.

☐ [Paid Media] **Paid Media Planning**

53% confidence 54.2h

Add to Selection

Primarily focused on paid media planning, not CRM email/SMS. Some components reference SLAs and CRM but overall scope misaligned.

⚠ **Risks:** Pulls focus into media budgeting and channels, delaying CRM strategy, journeys, and templates.

► Components (2) Select All Deselect All

(13 deliverables)

☒ [Technology] **Content Planning & Creative Design**

69% confidence 10.8h

Added

Directly supports CRM email/SMS operations by setting production SLAs (1–2 weeks BAU, 2–3 weeks campaigns), managing copy/design/build/ESP assembly, and enabling modular, accessible, localized templates across brands.

⚠ **Risks:** SLAs may be unattainable without clear ESP/data alignment and streamlined approvals; SMS compliance and deliverability governance may be under-scoped; resource bottlenecks could slow builds.

▼ Components (1) Select All Deselect All

☒ **Planning, Strategy & UX**

Explicitly defines cross-brand CRM email/SMS strategy, segmentation, lifecycle journeys, and SLAs—foundational to the 2026 CRM program brief.

10.8h

No specific tasks selected by AI

☐ [Technology] **Launch Coordination, Post Launch QA, Website & Hosting Maintenance**

52% confidence 15.5h

Add to Selection

Launch coordination and QA processes can support deployments, but scope appears web/hosting-centric rather than CRM/ESP-focused.

⚠ **Risks:** Potential mismatch with ESP needs; duplication with CRM QA workflows; web release gates could slow CRM timelines.

☒ [Technology] **Discovery & Immersion**

58% confidence 74h

Added

Foundational discovery of data, ESP/SMS stack, consent, and current journeys is essential to define cross-brand CRM strategy and segmentation.

⚠ **Risks:** Requires CRM, data, and privacy SMEs; if too generic, outputs may not translate into actionable roadmap.

▼ Components (1) Select All Deselect All

☒ **CX/UX Audit & Roadmap Collaboration**

Maps lifecycle journeys, pain points, and prioritizes a CRM roadmap aligned to segmentation and triggers across brands.

12.5h

No specific tasks selected by AI

☒ [Technology] **Setup & Configuration**

Essential for ESP/SMS configuration, data models, segmentation, and journey c

⚠ **Risks:** Platform limitations, data quality, and integration delays can impact timelines and reliability.

CHARLES AGENT

ProBuFo v3.0

☒ [Technology] **User Experience & Information Architecture** 59% confidence 40.4h Added

Directly aligns to defining cross-brand email/SMS strategy, segmentation, lifecycle journeys, and production SLAs; can house template architecture and guidelines.

 **Risks:** Dependencies on ESP/CDP access and cross-functional inputs; risk of incomplete standards without governance.

☒ [Technology] **Analytics Deliverables** 60% confidence 6.9h Added

Needed to track list health, engagement, conversion, and SLA adherence for continuous optimization.

 **Risks:** Scope ambiguity without defined KPIs and platform access; integration complexity.

☐ [Technology] **SEO Deliverables** 41% confidence 31h Add to Selection

SEO deliverables have minimal relevance to email/SMS CRM strategy or templates.

 **Risks:** Resource diversion into non-CRM activities; confuses success metrics.

► Components (3) Select All Deselect All

☒ [Technology] **Advertising Platform Tagging** 46% confidence 6h Added

Ad platform pixels are not core to building email/SMS CRM; limited overlap with event tracking.

 **Risks:** Potential distraction and privacy implications without CRM value.

☐ [Technology] **Website Refresh** 45% confidence 10.3h Add to Selection

A site refresh is not required for CRM; tangentially relevant via forms/preference center.

 **Risks:** Large scope could delay CRM timelines and SLAs.

► Components (2) Select All Deselect All

☒ [Technology] **User Experience** 50% confidence 24.1h Added

UX practices underpin modular templates and guidelines, but deliverable is broad and not channel-specific.

 **Risks:** Outputs may skew web-first and miss email/SMS constraints like rendering and accessibility.

► Components (2) Select All Deselect All

☒ [Technology] **Development** 52% confidence 88.6h Added

Required to implement modular templates, ESP/CDP integrations, and lifecycle automation for email/SMS.

 **Risks:** May default to web/app dev; must ensure ESP/SMS-specific development and compliance coverage.

☒ [Technology] **Back-end Development Deliverables** 47% confidence 16.3h Added

The brief prioritizes cross-brand CRM strategy, segmentation, lifecycle journeys, guidelines, modular email/SMS templates, and accelerated SLAs. Generic back-end development is not inherently required unless custom integrations or services are needed for the ESP/CDP, data pipelines, or SMS gateways. As stated, it's optional support rather than a core deliverable.

 **Risks:** Scope creep into engineering-heavy builds, timeline/budget overruns, or CRM outcomes if tech work isn't tightly scoped to ESP/CDP needs.

☒ [Technology] **Vital Setup**

50% confidence 10.3h

Added

If this covers ESP/CRM configuration, domain authentication, SMS sender provisioning, data connections, and automation enablement, it supports SLAs and execution of journeys/templates. However, the label is vague, so relevance is moderate pending definition.

Risks: Ambiguity may lead to missed essentials (e.g., DNS auth, compliance, short code provisioning), causing deliverability and SLA issues; potential duplication with platform ops if not clearly scoped.

• Integrated Marketing Management (7 deliverables)

☐ [Integrated Marketing Management] **Social Content Creator Production Management** 55% confidence 43h [Add to Selection](#)

Primarily focused on social creator production; minimal direct impact on CRM email/SMS strategy, journeys, or template system despite mention of SLAs/code standards.

Risks: Scope creep into social/influencer work could divert resources from CRM build and optimization; limited contribution to CRM KPIs.

► Components (5) [Select All](#) [Deselect All](#)

☒ [Integrated Marketing Management] **Reporting**

64% confidence 56.8h

Added

Measurement framework is needed to track list health, engagement, and conversion to inform segmentation and journey optimization.

Risks: Data access/integration dependencies; heavy reporting can slow execution if not right-sized.

▼ Components (9) [Select All](#) [Deselect All](#)

☒ **Dashboards**

4.3h

No specific tasks selected by AI

☐ **Emplifi Reports**

Emplifi is a social analytics tool; its reports are not pertinent to email/SMS CRM buildout.

5.2h

CHARLES AGENT

ProBuFo v3.0

No specific tasks selected by AI

☒ **Recap Reports**

2.6h

No specific tasks selected by AI

☐ **Social Reporting**

Focuses on social performance reporting, not email/SMS CRM strategy, segmentation, templates, or SLAs.

2.6h

No specific tasks selected by AI

☒ **[Integrated Marketing Management] Community Engagement**

59% confidence 24.9h

Added

Directly aligns to cross-brand CRM strategy, segmentation, and lifecycle journeys for email/SMS; foundational for 2026 program.

⚠️ **Risks:** Scope labeled 'Community' could expand into social; must tighten to email/SMS and ensure inclusion of templates and SLAs.

▼ Components (3) **Select All** **Deselect All**

☒ **Comment Response & Flagging**

Focused on social comment moderation, not email/SMS CRM strategy, journeys, or templates.

8.6h

No specific tasks selected by AI

☒ **Community Engagement Strategy**

Explicitly covers CRM strategy, segmentation, and lifecycle journeys across brands for email/SMS.

12.5h

No specific tasks selected by AI

☐ **Social Channel Management**

References SLAs and operations but focuses on social, not email/SMS; tangential to CRM goals.

3.9h

No specific tasks selected by AI

☒ **[Integrated Marketing Management] Editorial & Publishing**

56% confidence 49.9h

Added

Editorial/publishing processes support calendars and SLAs; can host guidelines and modular content ops for CRM.

⚠️ **Risks:** Scope may be broader than CRM and lack SMS specificity; overlaps with CRM Email Publishing component.

► Components (6) **Select All** **Deselect All**

☒ **[Integrated Marketing Management] Playbook Development**

58% confidence 15.5h

Added

Playbook creation is essential for cross-brand CRM guidelines, modular templates, and repeatable processes.

⚠️ **Risks:** Playbooks risk low adoption if not embedded in workflows; must be maintained as strategy/tests evolve.

► Components (2) **Select All** **Deselect All**

☐ **[Integrated Marketing Management] Community Monitoring**

42% confidence 25.8h

Add to Selection

Social community monitoring does not contribute to CRM email/SMS strategy, segmentation, or lifecycle journeys.

⚠️ **Risks:** Creates noise and misaligned KPIs; distracts from CRM build priorities.

► Components (5) **Select All** **Deselect All**

☐ **[Integrated Marketing Management] Social Listening**

49% confidence 5.2h

Add to Selection

CHARLES AGENT

ProBuFo v3.0

Social listening can inform content but is not core to building the CRM program.

⚠ **Risks:** Scope creep and noisy insights may misdirect CRM strategy.

 AI Pricing Assistant

 **AI Suggest Type**

Optimize All Pricing

After building your scenario, use AI to suggest deliverable types (Project vs Retainer) and optimize pricing based on budget constraints.

Export Pricing Details

Step 4 — Project Timeline & Scheduling

View: **Month**

Optimize for: **Balanced**

Starting...

 **AI Reasoning**

Save Order

 Generating AI Timeline

 Large project detected (31 deliverables). This may take several minutes. You can continue working while we generate your timeline.

 Connection switched to polling mode. Timeline generation continues...

Initializing... 0%

Preparing timeline generation...

Step 5 — Export

Export format: **Excel (.xlsx)**

CHARLES AGENT ProBuFo v3.0

Export Excel

Final Ship - Lock & Export All

This will finalize your project, lock all data, and generate comprehensive exports including all scenarios, pricing, and timeline data.

Final Ship Project

Build Alternative Scenarios

Create alternative versions of your project while preserving the original. Compare different approaches side-by-side.

Create Version 2
