RFP Content

- Audience & Market Research: Synthesize audience and market insights to guide paid media for student enrollment and staff recruitment across NY, NJ, and MA. Build a data-backed channel and testing plan keyed to school application and hiring cycles.
- Media Planning & Buying: Develop and execute a full-funnel paid media plan optimized for enrollment and recruitment outcomes. Activate and optimize across search, social, programmatic video/display/CTV, and relevant local channels with region-specific flighting.
- Campaign Creative: Create performance ad concepts and assets tailored to families and educator talent, localized to Uncommon’s five regions. Systematically test messaging that differentiates Uncommon and drives qualified actions.

Project Flow & Department Sequencing

From a PM perspective, here's how these departments flow together:

1. **Strategy** → Sets foundation & direction
2. **Creative** → Develops visual identity & concepts
3. **Content** → Creates messaging & narratives
4. **Paid Media** → Plans distribution & reach
5. **Technology** → Builds digital infrastructure
6. **Integrated Marketing** → Orchestrates & optimizes all channels

DEPARTMENTS
-

⚠️ Resource Risk Management

Risk Summary: ⚠️ 5 high-risk resource conflicts detected. Total potential idle cost: \$248,800

Resource/Vendor	Waiting Period	Idle Time Cost	Risk Level	Recommendation
workstream strategy	88 days	\$70,400	High	Consider reassigning tasks or adjusting timeline to reduce idle time
workstream paid media	31 days	\$24,800	High	Consider reassigning tasks or adjusting timeline to reduce idle time
workstream project management	92 days	\$73,600	High	Consider reassigning tasks or adjusting timeline to reduce idle time
workstream project management	67 days	\$53,600	High	Consider reassigning tasks or adjusting timeline to reduce idle time
workstream project management	33 days	\$26,400	High	Consider reassigning tasks or adjusting timeline to reduce idle time

 **Tip:** Red arrows (●→) in the Gantt chart indicate resources at risk due to waiting periods. Consider redistributing work to minimize idle time costs.
